

What makes us different:

Piedmont Columbus Regional is different than most residency programs!

Unopposed—as the only residency program here, you get more focused attention.

High volume—you get lots of practice in honing your craft at our busy level II trauma center. We are the local referral facility for a 50-mile radius.

Inpatient experience—2-3 more months of inpatient experience than most programs; many graduates serve as hospitalists.

Retention—90% of our faculty are former residents; 85 of the local community physicians are our graduates. **Continuity**—many of our faculty have been here for 20+ years—that says we're a good place to work.

Educational support—our \$2,000 a year CME funding plus paid-for exam prep items leads the pack.

Good pay and time off—competitive pay, 26 days PTO a year, plus 5 days for CME is more than most.

Piedmont-owned facilities—no "outsourcing" needed; you'll rotate through our core on-site departments.

Training Affiliations:

We also provide training for medical students for Mercer University School of Medicine, Edward Via College of Osteopathic Medicine, the Medical College of Georgia, and Philadelphia College of Osteopathic Medicine. Moreover, we have a joint Sports Medicine Fellowship with VCOM Auburn and have a Pharmacy Residency program on campus. Lastly, we have strong ties with the Family Medicine Residency program at Fort Benning's Martin Army Community Hospital.

Discover Columbus, Georgia

Come join us at Piedmont Columbus Regional for outstanding training in our Family Medicine residency program. Aside from a high-quality educational experience, you'll enjoy living in Columbus Georgia, the second largest city in the state. Columbus has a vibrant culture with major attractions. What's more, with AFLAC insurance, Synovus Financial Corp, TSYS payment solutions, and Pratt & Whitney engines and all headquartered in Columbus with nearby Fort Benning, home to the Maneuver Center of Excellence, Armor and Infantry schools, you'll also find a healthy local economy. Our downtown boasts year-round events like music fests and Market Days on Broadway, and the RiverWalk is a fan favorite anytime. Sports fanatics will enjoy our minor league football, soccer, hockey, and baseball teams. Outdoors enthusiasts will savor Pine Mountain, Callaway Gardens, Columbus Botanical Garden, Providence Canyon, and whitewater rafting options.

Family Medicine Residency Program

Piedmont Columbus Regional Midtown

710 Center Street
Columbus, Georgia 31901

Piedmont
COLUMBUS REGIONAL

Real change lives here

As a Family Medicine resident at Piedmont Columbus Regional Midtown, you will become part of the proud tradition of Georgia's oldest and largest Family Medicine Residency Program. Since 1972, we've successfully trained over 600 physicians who have successfully gone onto numerous career options such as private practice, hospital medicine, emergency medicine, fellowships, or becoming permanent Piedmont staff members.

Piedmont Columbus Regional Midtown is a 583-bed, level II trauma center. Our campus includes a cancer center, an ICU upgrade, and a new children's hospital that provides additional learning experiences. Both of our Midtown and Northside campuses enjoy the highest Leapfrog hospital safety rating of "A".

Because this is the only physician residency program at the hospital, the directors of all major services and the attending faculty in all departments are committed to physician training. Moreover, because many of the physicians at our hospital are program graduates, they understand the program's goals. In addition to our hospital, residents train at our Family Medicine Center that is an NCQA Level III Patient-Centered Medical Home.

The majority of our faculty are program graduates and are excited to pass along what they've learned. Come find out why we have such great staff continuity, including our program director of 32 years and program coordinator of 52 years. At Piedmont Columbus Regional, we know that people and tradition make the difference.

GRADUATE MEDICAL EDUCATION

Curriculum:

PGY-1 Schedule

Family Medicine Inpatient Service:	4 Weeks
